

ENERGY CREDITS

[Energy Star Website](#)

Residential Energy Property Credit

Geothermal Heat Pumps

Alternative Fuel Tax Credit (electric car charging station)

Solar property costs (solar panel or property installed on roof)

* Photovoltaic systems must provide electricity for the residence, and must meet applicable fire and electrical code requirements.

Solar water heating property costs (solar panel or other property installed on roof, heat water, derived from sun, certified by Solar Rating Cert Corp)

* At least half of the energy generated by the "qualifying property" must come from the sun. The system must be certified by the Solar Rating and Certification Corporation (SRCC) or a comparable entity endorsed by the government of the state in which the property is installed.
requirements.

* Tax Credit includes installation costs.

Note: The credit is not available for expenses for swimming pools or hot tubs. The water must be used in the dwelling.
